

WEBSITE DESIGN HEALTHCARE

WHY THE WEB

- ✓ Attract Patients
- ✓ Communicate
- ✓ Scheduling
- ✓ Ordering Products
- ✓ Streamline Operations

Patients Expect It!

ADVANTAGES

- ✓ Professional Identity
- ✓ Unique Design
- ✓ Personal Support
- ✓ Search Engine Friendly
- ✓ Baked-in Quality
- ✓ Continuing Care

Looks Great - love the layout... the best part is that it'll be easy to use. Thank you for all of your hard work!!!

*Rebecca Kelly
Marketing Director*

Full service, professional web design combining talent, experience and *exceptional* customer care

THINK!

- » **74%** of online users access the Internet for health information
- » **83%** would like follow-up emails after visiting their doctor
- » **81%** would like preventative care messages
- » **65%** of health information seekers use a search engine
- » Over **144 million** Americans access the Internet from home

For many patients, the web is their 1st stop for finding, researching and choosing a healthcare provider.

VISION

Before design or development—even before the first mockup—we must find the vision, the understanding. Why do you want a website? What will it represent? Who will use it? How will it enhance your practice?

Together, we quantify the “*who, what and why*” of your site.

ONE STEP AT A TIME

1. Goals & Expectations
2. Timeline & Pricing
3. Developing a Design
4. Creating the Site
5. Verification & Validation
6. Going Online
7. Continuing Care

FLEXIBILITY

Packages for diverse needs *and* diverse budgets...

- Micro – single page sites
- Small Practice – multiple pages with one style
- Corporate – different styles for home & inner pages
- Premium – custom layout of inner pages

Each website we build is unique; we do not rely on pre-packaged templates from other sources. We guarantee you a personalized identity on the web.

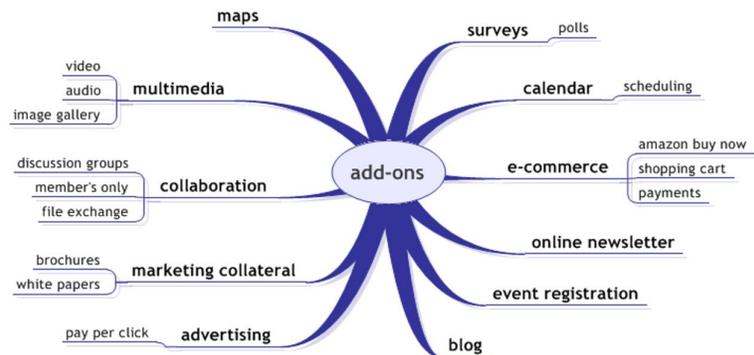

GETTING ONLINE

First, we work with you to find and select a domain name. Then we install, setup and test the site on a high quality web server. Finally, we configure the email for your new name.

WEBSITE DESIGN HEALTHCARE

BEYOND TEXT & GRAPHICS

OTHER SERVICES

Sometimes our clients need a hand with additional tasks related to their website. Maybe it's copywriting, picture editing, graphic development or online advertising management. For these we offer competitive fixed and hourly rates.

QUALITY

"Quality is never an accident" – William A. Foster

Quality is the little things that add up to a truly great website. Things your visitors will notice like fast-loading pages, browser compatibility, friendly layout and generous white-space. And details they might not: search engine friendly organization, effective headings and validation.

At Llamawerx, we proudly deliver high-quality websites for our clients—and theirs.

PRICING

After understanding the goal, Llamawerx prepares a detailed proposal for your project specifying exactly what we will do, how we will do it and how much it will cost. Our proposals contain a fixed price for the design and development—along with hourly rates for additional options and services. We itemize all of the details so you see *exactly* where your money is going.
